Experience

Web Developer | GMedia | 2024 - Present | Part-time

Responsibilities:

- Designed and developed responsive landing pages and small businesses websites using HTML, CSS, and JavaScript.
- Implemented design frameworks like Tailwind CSS and Bootstrap.
- Resolved bugs on existing client websites to improve functionality and user experience.

Account Manager | Sensata Technologies | 2023 - Present

- I am actively involved in B2B sales and building long-term relationships with clients.

Education

JavaScript Web Developer | Software University | 2023 – Present

Acquired skills ranging from JavaScript features like OOP, DOM manipulation, routing, asynchronous programming, client-side rendering, to best practices like unit testing, version control(Git). Created Single-page applications that interact with RESTful services, allowing users to Create, Read, Update and Delete (CRUD) data.

Used Postman for testing APIs and Firebase as a realtime database and backend service.

Web Development Bootcamp | Udemy | 2023

Completed course which teaches the basics of HTML, CSS, JS, React.js, Node.js, APIs, SQL, PostgreSQL.

Other

I am really into self-development. Outside of my working hours I like to read books, tech and non-tech. Also I actively do sports and like to hike in the mountains!
